As a creator and conservator of that most distinguishing charm of female loveliness, a tritiparent fair skin, Jules Haue's Nymph Soap, or Eau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expels all impurities from the surface, always every tendency to inflammation, and by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youth, till elation to the most advanced period of life.

**Highly Important to Persons using Spectacles.** THIS simple but very useful optical instrument becomes in the hands of a scientific Optician, the means of not only giving clear vision to a defective eye, but also to improve and preserve the same to the latest possible age, by a proper application of its glasses. A fine flint glass, free of flaws, should always be applied with such a degree of convexity or concavity, precisely as the defect of vision requires, not more nor less, or else the result will be a faster decline of vision, and by the accommodation of the eye to an improper focus, will finally terminate in a total inability of reading, writing or sewing, in the prime of life. Persons not acquainted with optical principles, should never select spectacles without the advice of a skillful Optician, as the eye, this great masterpiece of divine mechanism, is a delicate organ, requiring their greatest attention.

The subscriber has taken a room in Vose's Washington House, at the head of Beach road, where he may be consulted for a short time. All persons desirous of obtaining superior glasses, fitted exactly to their eyes upon the first examination, will do well to call. His selection of Spectacles and Eye-glasses is very large, and his mode of applying glasses to suit the eye, will convince the visitor at once that he has trusted his most valuable organ into those hands to whom it is due of right belongs.

He also recommends his Terrestrial Telescopes, which are admirably and first-rate instruments. The opportunity offered by the subscriber is rare, and it is hoped will be embraced by the citizens and the visitors of this place in general.

E. MARKENS, Optician from New York. Rooms at Vose's Washington House, up stairs. July 13/47

## OUR WAR WITH MEXICO.

The London Times speaks thus of the success of American arms in the war with Mexico:—"At this moment the very path of Cortez is trodden by men who, if they present some strange contrasts, are not less confident in the infallible fortune of their cause, than the famed Conquistador. The flag of republicanism supplies the place of the cross, whose reign the Spanish cavaliers chose to believe themselves divinely commissioned to enlarge. The prevailing destiny of the Union is an article of faith across the Atlantic, and for which many a citizen would rejoice to be a martyr. Such is the spirit and such are the men who are making their way with only a shadow of opposition from Vera Cruz to Mexico. Such is the enterprise of which every three or four days now bring us fresh tidings.

Hitherto the Mexicans have represented rather the ancient natives of their country than the conquerors from whom they are really descended. On their side it has been all defiance, obstinacy, and rashness. The notes of preparation have been loud; and the threats sanguinary. At the moment when these promises should be realized the bubble seems to burst. After the stand at Monterey there has scarcely been anywhere a resistance worthy of an independent nation. The impregnable St. Juan d' Ulloa was no sooner known to be invested than tidings of its capture arrived. Even where courage was not wanting, Mexico could not give it means of resistance. Since that, every fresh occasion has proved both the incapacity of the state and degeneracy of its chiefs. The battles of Buena Vista and Cerro Gordo have proved that, whatever the numbers, there is not the strength nor the morale in the Mexican Republic to maintain an effectual war of defence. City after City—Tampico, Tuxpan, Matamoros, Monterey, Vera Cruz, and last of all Jalapa—are in the quiet occupation of the enemy.

**CATHOLICISM IN THE UNITED STATES.** But few are aware how numerous in the United States is the Catholic population. From the statistics published by order of the Arch-bishop of the United States, for 1847, we obtain the following facts:

In the Diocese of Louisville, 30,000; of Cincinnati, 70,000; Detroit, 75,000; Vincennes, 27,000; Dupuque, 9,500; Pittsburg, 35,000; Little Rock, 700; Chicago, 50,000; Milwaukee, 30,000—Total, 324,200.

Diocese of Baltimore, 90,000; of New York, 330,000; of Boston, 75,000—Total, 365,000.

The general impression is that in the valley of the Mississippi are most of the Catholics in this country. But the above figures contradict that supposition. The East has 70,800 more than the West, independent of the diocese of Philadelphia with 71 churches and 59 priests, and that of Hartford, with 8 churches, 14 other stations, and 9 priests, which if they could be added, would swell the eastern list very considerably. About one third of the population of Boston are Catholics.

**REMEMBER THAT, LADIES!**—The fair editor of the Boston Transcript makes the following sensible remarks:

"When old age and youth intermarry, it is very certain there is no love on either side. There may be passion on one side, but there is no pure love on either. It is very remarkable as the world's ways and these unreasonable matches sometimes occur, that they married rich ones, and thus these wives are actually bought up as the slaves at the south are, with money and a price! Shame! shame on such heartless humanity!"

Mr. J. W. Long, editor of a southern paper, asks, "When will the editor of the Louisville Journal learn to tell the truth?" To which Prentice replies, "There is no doubt but I shall tell it before Long."

"Telly ar mistress that I have torn the curtain," said a gentleman to a punning domestic of his lodging-house. "Very well, sir; mistress will put it down as rent."

## On this Love Love observed Ven-

erable Joe, sarcastically—"love's a himposi-tion. There's been more people imposed upon by that 'ere word, than by all the professional swindlers in nature. It's a gross, a universal himposi-tion; and it's only werry wonderful to me that it ain't long ago ben hezpunged. A gal snys she loves yer. Werry well; but are you consequentially obligate to make a fool o' yourself? No!—you've only gotter hipsy-dixy, and wot's the good o' that? Marry her, and you'll soon see. 'ow sweet the love as meets return.—Aut arout that, look 'ere, only jest for instance: a gal loves a soger—vich they all do; it's reg'lar: he's a private; still, she loves him—oh, hout and hout! Werry well, don't yer think she'd give 'im up for a hoffer? In course she vood! And why?—Why, cos it'd be a better chance. Has for love, it's the vickedest, the swindlinest operation as is: The chances is vot gals look out for. The only question with 'em is, 'Is it a good chance?' If it is they'll have it; if it ain't, they won't, unless they can't git nothin' better. Its the deadeest take in, is that love, ever heerd on; a deader do never was himwented. You take yer advice; and don't be fozzled. Venover yer 'ear the word love, always wiew it as a gross himposi-tion. Hiff yer don't yer'll be done, and only find out the difference ven it's too late. Look at me, jist, for instance. I was sixty-two in Jennewerry last; look at that! sixty-two, and I ain't done yet. I'm invited to all the parties. I'm never forgot. There's the old 'uns as is single a hoglin' on me reg'lar, and the old 'uns as is married, a settin' their darters upon me; it'd be such a chance! and all, in course, cause I'm single. Why, d'yer think they'd care about my company, perwided I was married? Does it stand at all to reason they'd invite me as they do, hif they did't believe I was yet to be done? Not a bit of it! not if I was woth a matter o' fifty times more than I am. But, as it is—as I've allus escaped the himposi-tion—there an I, never missed, allus thought on; looked up to and respected; vich, let me tell 'yer, 'is a werry great advantage.—Bentley's Miscellany.

# THE DAILY NEWS.

Newport.

THURSDAY, AUGUST 15, 1847.

BY O. F. JACKSON, 97-THAMES ST.

**NORTH AMERICAN SCENERY.**—This is the title of a work which is now being published in monthly parts, to be completed in twenty-four numbers, and a truly beautiful work it is. Its size is large quarto, and each number contains four splendid lithographic views of North American Scenery, from original drawings, taken on the spot, by B. Whittfield Esq., together with eight pages of letter-press giving a history of the scenes represented. The literary department is under the superintendence of John Keesee Esq. We have received the first six numbers of this work from the publishers, and have gained much information from a perusal of it. In our estimation this is an invaluable work, and we would advise every one who has a taste for romantic scenery to become a subscriber to it.

Published by H. Long & Brother, 32 Ave. New York, at 25 cents per number.

**THE EXPLOSION ON BOARD THE NIAGARA.**—The *Courier & Enquirer* brings the following serious charge against the Captain of the boat: "We are informed that a passenger on board the *Niagara* heard the Captain insist upon the Engineer's putting on more steam when the *Roger Williams* was evidently overhauling her. The Engineer replied that it was not possible, with the boiler blowers as then arranged; and that the order of the Captain he changed the gearing of the blowers which doubled their velocity; and that the boiler exploded within fifteen minutes thereafter. It is admitted that the boat had more than 45 inches of steam on when the explosion took place."

**A WIFE KILLED BY HER HUSBAND.**—A melancholy accident occurred near Troy, Pa. on Thursday night of last week. Some time in the night, Mrs. Pierce, wife of J. B. Pierce, had occasion to go to the window of the chamber in which they were sleeping, leaving Dr. P. asleep. The raising of the window awoke him, and he instantly seized his gun which was near his bedside, supposing that some one was trying to break into the house. After Mrs. P. had let down the window, she advanced towards the bed—Dr. P. called out twice to stop, or he would fire; but she still advanced, and he fired when she was near the muzzle of the gun—the whole charge of shot entered her breast, and she fell dead on the floor. He then left in bed for his wife, to tell her he had killed some one, when not finding her, the truth flashed upon him that he had killed his own wife.

**ROYAL BANK OF PIETY.**—The following is the substance of a document which has been, for some years, posted in the Catholic Church, Madrid:—"The sacred and royal bank of piety has since its foundation in 1721, to November 1826, delivered from purgatory 1,039,395 souls, and 11,402 souls from November, 1826 to November, 1827." The entire sum expended for this object amounts to more than forty three millions of francs. The number of masses said to accomplish this work of piety has been 553,841. Consequently each soul has cost between eight and nine-tenths of a mass, and thirty-eight francs.

It appears that there are no less than fifteen mammoth distilleries at work in the suburbs of New York. A writer in speaking of them says:

Connected with these distilleries are very extensive "milk factories," where immense quantities of unwholesome milk are manufactured and carried about the city to poison the inhabitants. These milk factories consist of large herds of cows, closely confined in crowded stalls or pens, which are fed on the slops from the distilleries, and extract therefrom their milk. It is said four thousand cows are kept in this way by the distilleries of Brooklyn and Williamsburg. Another distillery in New York, on fifteen streets, near the North river, supports, it is said, about two thousand cows. The medical faculty all agree in pronouncing this milk unwholesome, dangerous to health, and though the public has been often warned of its deleterious qualities, still there is no diminution of its use. It is sold to thousands of families under the name of "Orange county milk," or "pure country milk," many of whose young children undoubtedly sicken and die from the use of it, and they never suspect the cause.

## "CITY" ITEMS.

Our town never has, since we have known it, had more company in it at one time than at present, and we doubt if it ever has, since it became so celebrated a watering place. Every year adds new and more extensive accommodations for strangers, and notwithstanding such is the case, our means to accommodate all that would come here are found inadequate. The number of people that have visited Newport since this season opened cannot be less than eight thousand, and every day adds to this number. Three hundred, at least arrived here yesterday in the New York, Providence, and Fall River boats. There are about seventy-five public and private boarding houses on this island, capable of accommodating from four hundred boarders downward each, so that some idea may be formed of the arrangements here for the accommodation of summer visitors.

The following lines were picked up on the beach by a gentleman who handed them to us. The writing is a female's, and the fair authoress when she composed them, was undoubtedly thinking of some poor dejected old bachelor. We shall send them

### Lines from the Beach.

He has no wife—he's quite alone,  
Unthought, unhappy and unknown;  
His days gone by no pleasure give,  
He breathes, he thinks, but does not live.

He has no wife—he does not know  
The joys from wedded life that flow;  
His absence there is none to mourn,  
No eye looks bright at his return.

He has no wife—his joys are few,  
Though he is rich and healthy too;  
How selfish he who will not share  
His wealth with woman, chaste and fair.

He has no wife—and is it meet  
That man should live to drink and eat?  
For this did the Almighty hand  
Form man the ruler of the land?

He has no wife—well is it so,  
His days are numbered here below;  
He soon must go where none return,  
And then his dog and cat will mourn.

The yacht *Sybil*, Capt. Edgar, of New York, came to anchor in our harbor on Tuesday evening. She is a pretty modelled craft, and looks as though she might sail some.

P. S. There are four other yachts at anchor in our harbor this morning which arrived during the night.

A walk down to the Beach, and a glass of Ice Cream at Ocean Cottage, are as great luxuries as we know of this warm weather. It makes a person feel fifty per cent. better.

Dean says he is determined to distance all competitors in the fruit line. He will tell you in an advertisement to-morrow, what he intends to do.

Signor Blitz is astonishing the citizens of Boston with his wonderful feats, but this is nothing strange, for he is certainly the most successful performer that we ever witnessed. We hope he will pay us a visit.

Blue's Band, of Providence, composed of colored gentlemen, played very finely on board the *Perry* last evening as she left for Providence.

August 3, 1847.

Mr. JACKSON:—Allow me to say a few words in reply to the article in your paper of today signed "Proh Pruder," the writer of which, like Maude Headrigg, in old Mortality, wishes with his "ould brief breath" to bear testimony against the short comings, backslidings and defections of the people of this land. He complains that with several ladies in his company he traversed the whole length of the broad aisle of Trinity church, and that no one had sufficient courtesy to tender him and his distinguished train a seat. Many of the pews in that aisle are at this season rented to strangers, who like himself are here for a short time in the summer, and a part of the disgrace consequent upon so flagrant a breach of good manners must necessarily fall upon them; but I hope the permanent members of our congregation are not without some good reason, for this lack of courtesy. Having been for many years a pew holder, I have had some little experience in tendering these civilities, the lack of which he so much complains. I have frequently known persons occupying seats in the side aisles, leave them and invite gentlemen and ladies to enter their pews, and be met with the reply that they preferred a seat on the broad aisle, or have the invitation declined by a stately inclination of the head. This conduct on the part of strangers has somewhat abated the ardour of our politicians, and many of us now wait until we are tolerably sure that an offer of a seat will not be thus coolly rejected. In regard to the sexton, I would say, that he has generally conducted strangers to the few pews provided for them by the church, and that it is no uncommon occurrence to have these seats declined with a request for seats in the broad aisle, which, it is usually out of his power to furnish. But "Proh Pruder" complains that incivility is not the worst feature in the rate. What then is it? will be asked,

Why the grand daughter and grand son of a signer of the Declaration of Independence, the son and daughter of the mid day camp of General Lee, who perilled his life in the battle of Rhode Island, and the grand daughter of the private and confidential aid of General Washington, were wandering through the broad aisle, unable to obtain a seat. To prevent in future a like calamity, and that the patriotic and courteous of our congregation may not knowingly be thus boorish and ungrateful, I would suggest that such distinguished persons should come ticketed, like the wax figures at the American Museum, or that a herald precede them announcing to the congregation their rank and pedigree, and calling upon all as they love their country, and desire to be esteemed for civility and good breeding, to throw wide open their pews doors. ONE OF THE CONGREGATION.

Mr. EDITOR:—As one of the pew holders of Trinity church, I shall trouble you and your readers with a few remarks upon an article which appeared in your paper of yesterday, and if I should not fully vindicate this congregation from the rudeness and incivility charged upon them, I may at least present some facts in relation to this ancient body of worshippers, and I might add respectable, if their character was not now for the first time assailed. With accommodations which are ample for all in ordinary times who wish to attend, there is an increasing demand as summer approaches for those pews which are vacant, or which can be easily vacated; and at the date of that communication and on the day on which this offence was charged, nearly one third of the lower floor was leased by visiting strangers. From this statement, it will be easily seen, and to be more explicit it could, if necessary, be proved that of all those pews by which he passed on this, his first appearance, only a small portion had their ordinary inmates, as this part of the house is thought by others, as by himself to be particularly desirable. But it is not the good people of this community whose indignation is aroused, or whose patriotism is appealed to, for this seeming neglect. They perhaps are not susceptible of these emotions, but "what must strangers and visitors have thought?" The judges, and offenders! They must have thought the same as when at home and in their own house of worship, they allow an individual, if so unfortunate as to be unknown to pass from one end of their sanctuary to the other without an invitation to sit among them. I should not pass over, with indifference, what to him seems so important—that these were the descendants of men illustrious in history, and there had been at the time an announcement of the facts, which were subsequently developed, it would have made the case much stronger against us.

DORCHESTER, Mass., June 15.

Dr. F. Brown.—Dear Sir:—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed! It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, supposing there is no relief. I now value them so highly I keep them in the house, and use them in my family, as I consider them the best, pleasant, and most thorough medicine now in use, removing all impurities, carrying off all bile, without weakening the system, or being obliged to change your diet.

After showing this in any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which it will afford me great pleasure to do.

### JONES' SOAP.

Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan; Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly (If Jones' Soap you'd use) come once—do try! It costs but fifty cents, and I am told It's worth, aye, doubly worth, its weight in gold. Persons who have had no faith in it, have been astounded at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in purifying the skin. For sale by Dr. R. J. Taylor.

Radway's Chinese Medicated Soap is superior to all imported French, Berlin, and other Soaps. Tan, sunburn, pimples, blotches, pustules, ring-worm, salt rheum, erysipelas, rash, scurvy, the bites and stings of mosquitoes, rough and discolored skin, pale and sickly complexion all yields to the curative propensities and beneficial influence of this valuable and delicious emollient. In fact, be the complexion ever so disfigured, or the skin discolored or diseased, Radway's truly excellent medicated soap never fails in rendering the skin soft, smooth, fair, sweet, clear and healthy. Many persons suffer great annoyance during the summer season from the troublesome insects mosquitoes. Those persons, subject to these annoyances, by applying Radway's soap to such parts of the caudle as is bitten, it will instantly alleviate the pain, subdue the irritation and instantly remove every vestige of blemish. For general toilet soap it is unequalled, it proves an agreeable perfume, and is entirely free from all poisonous admixtures, or irritating ingredients. It is much cheaper than any other medicated soap, and is acknowledged by thousands to be superior to all others ever offered to the public. No Chinese Medicated Soap is genuine unless signed, R. G. Radway. Be sure to ask for Radway's Soap, and take no other. Sold for 12½ cents per cake, by Dr. R. J. Taylor.

Dear Sir:—I take pleasure in communicating to all whom it may concern, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might some day die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1846, when I added another cold; my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side. I sweat very much at night, raised considerable blood during the winter, and could not speak aloud for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders; general debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with the Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefited himself, advised me to take WISTAR'S BALM OF WILD CHERRY.

I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balm until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balm of Wild Cherry saved my life.

We are personally acquainted with Mrs. Gould—assisted in taking care of her during her sickness, believe and know the above statement to be true.

Dr. Banning's Patent Body Lotion, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Lotion, and be put off with nothing else.

WARREN, August 23, 1846.

Dr. Banningman.—Dear Sir:—Now being about leaving for home, I am able to give thus far a favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and

medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body retaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

It READS—  
Disease of the Lungs and Throat cured.  
White Phlegm, April 20, 1817.

This is to certify that I have been afflicted for  
five years with a cough, pain in the chest, night  
sweats, difficulty in breathing, &c., and I also  
expectorated a large quantity of frothy matter and  
blood, from which I was reduced to a perfect  
skeleton, my throat was very much ulcerated. I  
had lunar caustic applied to my throat twice a  
week, but received no benefit; I have used one  
hundred different kinds of Patent Medicines, re-  
commended by my friends, but all to no purpose.  
A friend of mine, Mr. Willett, whose lungs had  
been affected for two years past, was cured by Dr.  
Vandersmith's Medicine. He insisted upon my  
trying Dr. V.'s, and I did so. After I had used his  
medicine 15 days, I expectorated large quantities  
of yellow frothy matter, my chest expanded, and  
my difficulty in breathing subsided. I persevered  
with his medicine, and the result has been, I am  
perfectly cured of all my sickness. I recommend  
every consumptive to try Dr. V.'s medicine, I am  
convinced it will cure you. Your sincere friend,  
EDWARD C. THOMPSON.

Inflammation of the Lungs.  
New York, June 19, 1817.

Dr. Vandersmith—I have been subject to a  
cough, pain in the chest, difficulty of breathing,  
&c., for many years past. About four months  
ago I took a severe cold, which settled on my  
lungs. I was unable to attend to my business  
during the day. I would have dreadful coughing  
spells, that I thought it was impossible for me to  
survive unless I could get relief. The excessive  
night sweats, had reduced my whole body to a  
skeleton. I expectorated white frothy mucus.  
In fact, should I give the full particulars of my  
case, it would be almost incredible. I was recom-  
mended to try Dr. Vandersmith's Indian Cough  
Balm and Lung Balm. I consented; when I  
had used it about one week, my cough decreased  
considerable, which gave me great hopes. I con-  
tinued with the medicine according to directions,  
and the result has been that I am restored to health.  
A blessing that I have not enjoyed for years, until  
the present. I sincerely believe had I not made  
use of Dr. Vandersmith's invaluable medicine,  
that I would be mouldering in the silent grave.  
Therefore I believe that I am doing nothing but  
what is justice, in stating the above facts, so that  
you may show it to all the afflicted who may call  
upon you to administer to them. I shall be  
pleased at any time to converse with the afflicted  
who call upon me. Your grateful patient and  
friend,  
JAMES B. HENDERSON,  
No. 703 Washington street.

Sworn before me this 19th day of June, 1817.  
W. V. BRADY, Mayor of the City of New York.  
Consumption.  
Station Island, June 10, 1817.

Dear Sir—I take great pleasure in giving you  
my certificate, last December I was attacked with  
a severe cough, pain in my left side, loss of ap-  
petite, and continual raising of white and yellow mu-  
cous. Some days I raised a half-pint of mucus,  
streaked with blood. I have been under the treat-  
ment of a dozen physicians. I was recommended  
by Dr. Mitchell of Philadelphia, to use a Breath-  
ing tub, I purchased one, I only made use of it one  
week, it was the cause of bringing on a hemor-  
rhage of the lungs, which reduced me so much that  
I was unable to sit up, my voice was entirely de-  
stroyed, it was difficult for persons to understand  
me. I saw Dr. Vandersmith's Medicine recom-  
mended very strongly by a patient whom he had  
cured. I sent for half a dozen bottles. I received  
great benefit from that, which induced me to pur-  
chase a dozen bottles, I took according to the di-  
rections, and it cured me perfectly sound.  
Yours, &c. ROBERT WILLISSEY.

It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, and clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth.

**The American Improved Hygienic Vegetable Medicine.**

**SAFE, CHEAP AND EFFECTIVE.**

THIS medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unfavorable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.

During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—have occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—his knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must be in the use of it. Try it, then. Read, try, and then judge.

**Boyle's Hyperion Fluid; Or Vegetable Hair Composition.**

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, free of animal grease or essential oils. It closes the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing **BALDNESS AND GREY HAIR.**

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

**DR. BANNING'S PATENT LACE!**

**An immediate Relief to Incurable Consumption, the Bronchitis of Public Speakers, Palpitation of the Heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.**

THIS instrument has been examined by Dr. Mott, Rodgers, Francis, and Griscom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

**Middletown, June, 25th, 1843.**

**Dr. Boardman,**  
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.  
Yours, &c. **WM. RANKIN.**  
**Dr. G. M. Boardman,**  
**Middletown, June 25, 1843.**

**Dr. Boardman,**  
Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, protrusion of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.

**Providence, Feb. 26, 1846.**

**Doctor Boardman,**—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher.

**TO THE LADIES IN PARTICULAR.**

**MY** DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

**MOTHER'S RELIEF.**

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the **MOTHER'S RELIEF** before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all fertile and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

**CAUTION TO PURCHASERS.**—Ask for Bannings' Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac simile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.

**Miracle.**

ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:

"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease! The Negro, the Greek, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of **JONES' ITALIAN CHEMICAL SOAP**, in curing Pimples, Blotches, Salt Rheum, Scoury, Erysipelas, Sore Heads, Old Sores, Beard and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct., 1814.]

One of our subscribers, **Mr. H. Leonard**, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.

**James Elham**, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it, but always ask that the name of J. JONES is on the wrapper. For sale in Newport by

**READER! READER!**

If you are afflicted with Bronchitis, Asthma, Obstructions or common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping Cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try

**DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.**

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

**Mr. J. Hiram Angell**, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

**Mrs. Morgan**, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your heart and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

**Mr. L. W. Conklin**, 103 Eldridge-st.  
**Mr. Alonzo Brown**, 72 Reade-st.  
**Mrs. Morgan**, 162 Front-st., Brooklyn.  
Orange county, April 18th, 1846.

**Dr. EMANUEL,**  
Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear Sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear Sir, with great sincerity,  
**ISAAC J. BIRD.**

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

**MY EAU LUSTRAL HAIR RESTORATIVE.**

This universally approved and admired article, free from ardent spirits, pungent essential oils, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in new hair on bald heads by its use; and hair that has been made harsh, and is turning gray or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the **Eau Lustral**.

It is a preservative against baldness, and an infallible cure in all affections of the skin on the head, as dandruff, and for preventing the falling off of the hair and turning gray.

**Evidence.**—Nature is an inexhaustible mine, in which experience and study will always find room to excavate; it is that source alone which produces all that man calls invention, and which he would do better, perhaps, to name adaptation.

**Coggeshall & Bliss' Patent Cooking Range.**

THE subscribers have just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the boilers are brought in close proximity with the fire, and consequently they boil much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Over 12 pipes wide by 3 1/2 deep, which cannot be surpassed for baking.

The subscribers have one of their Ranges in operation at their store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. They also keep constantly on hand all kinds of Carlor, Office, and Cook Stoves, Tin Ware, &c., &c.
